ENTERPRISE *Asset* MANAGEMENT (EAM) COMPUTERIZED MAINTENANCE MANAGEMENT SYSTEM (CMMS)

Beam Enterprise Asset Management solution covers all processes related to fixtures, from adding them to the inventory to scrapping them. The solution also determines the reasons for asset failures, compares the purchasing price of your assets in foreign currency with the costs of materials and labor spent on the asset, and provides information to support your management's decisions regarding the economic life of your assets.

WHAT YOU GAIN WITH

- ✓ **Corporate asset memory**
- ✓ Asset useful life and value tracking
- ✓ **Breakdown, periodical and predictive maintenance management**
- ✓ Reduction in maintenance and spare part costs
