

What is Possible with Bimser Synergy AI?

AI Multilingual Support

The forms and processes you develop can be used globally with **one-click automatic translation** into all languages thanks to AI.

AI Code Review Assistant

Custom-written code is **automatically analyzed by AI to detect errors and performance issues**, offering suggestions for improvements.

AI Query Assistant

The era of writing queries in natural language is here! With simple commands like "List expenses over 5000 €", AI generates the queries you need automatically.

AI Developer Assistant

A smart assistant that guides developers! It provides instant answers and examples to questions like "How do I make a field mandatory?"

AI Document Assistant

Chat with your documents! Summarize content, ask questions, and generate new material using the AI-powered assistant.

AI Help Assistant

Instant support on Synergy! Get immediate AI-powered answers to questions like "How do I assign a proxy?"

AI Document Categorization Assistant

AI analyzes hundreds of documents, **assigns categories automatically**, and lays the groundwork for content-based searches.
